

T&A Consignment Service

This service offers convenient on-site job supplies of your choice in a customizable cabinet, basically having our store at your disposal 24/7. The consignment service helps your company save valuable time and money by providing an instant solution when you are in need of products to complete your jobs. No more spending man power and time searching for products or quoting the same items over and over. It also saves foremen time and money by not traveling and standing in line at the Big Box stores. The service controls inventory and impulse purchasing. What can be more convenient than picking your product, choosing a refill day all at your office or jobsite? We pride ourselves on the exceptional services we provide and would like to show you our most flexible and cost savings consignment service.
